If you are traveling to Mexico, Dominican Republic, Venezuela, or South Korea please call MTS Customer Care or MTS Roaming (numbers listed below) before you leave to ensure CDMA access is available in the local area. Roaming on a GSM network is supported in areas where the network is 900/1800 GSM only. Some areas (GSM and CDMA network areas) may not allow for you to roam due to technical and network availability limitations or other reasons, including fraud concerns. Standard CDMA Roaming rates apply for calls made or received in CDMA coverage areas (International & North America). Please check mts.ca/coverage for roaming pricing details. Charges for CDMA and GSM roaming will be different. For calls originating in Canada, pricing will be determined by your calling plan. All calls placed and received on a GSM network will be billed at a flat rate, which is currently \$2.49/minute. This rate includes long distance, airtime and is the same for incoming and outgoing calls. Data use on GSM/GPRS networks is charged at a current rate of \$.05/Kb, billed in minimum 10Kb increments. Minimum charge per use is \$0.50. Please regularly check mts.ca/coverage for updated country lists and codes. **All rates subject to change without notice.** Ability to use Roaming Service in both CDMA and GSM network areas is subject to change without notice. MTS design mark is a registered trade-mark of Manitoba Telecom Services Inc., used under license.

Information contained herein is effective as of May 2010.
Current information is available at mts.ca/coverage.
